

LEARNING OUTCOMES  
Theater/Music/Film Production /Digital Media/  
/Graphics/Culinary/Hospitality/Building Construction

M Shugg / J Inglis

1. **The student will demonstrate professional behaviors and attitudes by working well within teams, articulating their goals logically and intuitively.**
2. The student will be assimilated into the industry and be a valued contributor to the profession.
3. **The student will select the appropriate process and/or technique needed to solve complex problems efficiently.**
4. The student will be able to recognize, evaluate, interpret, communicate and complete project goals.
5. **The student will demonstrate independent learning and be able to share their knowledge with others.**

**IDEAS for ASSESSMENT:**

1. Design an instrument that tracks alumni progress and accomplishments.
2. Design an instrument that surveys employers' observations concerning alumni.
3. Design an instrument that surveys graduating students and alumni about the effect of their learning experience.
4. Develop a comprehensive assessment as a capstone or exit device.
